## Project Logistics Summary

Congratulations!

Our in-country Project Managers have confirmed your acceptance and arrival for your upcoming trip! You're now almost ready to get on that plane, and start seeing this world in a meaningful way! You should have received your Pre-Departure Guide (PDG) by now for your journey, but please let us know if you want it sent again. It's super important that you read your PDG *before* you get on the plane, as this outlines more information about your project, the destination and what to expect when you're abroad. Below, we've summarized your pick-up and transfer details, and we strongly suggest carrying this document with you when you touch down!
